

JORENKU Dan-Liq Calf Start

JORENKU Dan-Liq Calf Start

Liquid minerals and vitamins through the milk with Dan-Liq Calf Start.

Dan-Liq Calf Start is a mixture of dissolved minerals and vitamins. Dan-Liq Calf Start has a wide range of benefits, because the calves get more active and get a good appetite. Furthermore, the calves get a shiny coat and begin to eat roughage and concentrates at a younger age.

The dissolved minerals in Dan-Liq Calf Start are absorbed effectively through the intestinal wall. It gives a good result and is very effective.

Dan-Liq Calf Start is particularly suitable for calf rearing from day 2 until weaning of milk.

Dan-Liq Calf Start is added 1-2 times daily in the milk. A dose of 10 ml should be used per calf per day.

Dan-Liq Calf Start is available in cans with 5 kg and drums with 200 kg.
