JORENKU Eurovit E100 w. selenium

Liquid mineral feed supplement with synthetic vitamin E.

Eurovit E100 with selenium is used as a vitamin supplement when there is an extra need for vitamin E and selenium - most often among livestock with problems such as death- or weak-born animals or/and unpleasantness.

The combination of vitamin E and selenium is ideal as they complement each other's qualities.

Dosage

- Pigs: 5 ml per animal per week
- Sows and gilts: 12.5 ml per animal per week
- Piglets: 2.5 ml per animal per week
- Calves: 5 ml per animal per week
- Cows: 25 ml per animal per week
- Poultry: 12.5 ml per week per 50 animals
- Mink and rabbits: 6 ml daily per 50 animals

Eurovit E100 with selenium is available in cans with 1 kg, 15 kg and 25 kg and in drums with 200 kg.

Additives
Vitamin E
Sodium selenite
Preservatives
Antioxidant
